

TC-NAS Meeting

3-4p 28 April 2012
132nd Convention, Budapest
Minutes by Kevin Gross

Use cases

No progress has occurred due to conference and convention planning. Nathan Brock will distribute latest version of draft to TC-NAS reflector. Additional contributions are welcome. There are currently no broadcast use cases represented. Anticipate progress this Summer.

JAES special issue

Special issue on audio networking to be published in January/February 2013. Issue is being co-edited by Richard Foss and Jeremy Cooperstock. Additional submissions accepted until 3 September 2012. 5 papers selected from 44th conference papers and are being expanded by authors.

Networking conference

Targeted for 1st half of 2014. European location preferred. 4 other AES conferences are being scheduled for 2014 in Europe. An East coast North American venue is also an option. No venue or chair identified. Nathan is able to co-chair but we need someone on site to arrange things. Conference proposal must be presented in October 2012 in San Francisco including committee roster, venue, budget. Attendance goal 100.

*If you would like to nominate someone for conference chair, contact **Kevin Gross**.*

*If you would like to nominate yourself for conference chair, contact **Nathan Brock**.*

Network focus at 133rd convention

Nathan Brock has been appointed network track chair. The committee discussed possible events.

1. Cloud computing
2. Internet distribution
3. Telematic performance – **Nathan Brock**
4. Dynamic adaptive rate streaming – **Max Neuendorf**
5. Interoperability topics: X192, AVnu certification – **Kevin Gross**
6. Repeat broadcast panel held at 44th and again at 132nd – **Stefan Ledergerber**
7. Broadcast networking tutorial
8. Audio over IP tutorial – **Kevin Gross**
9. Repeat hands-on control session from 44th – **Richard Foss**
