

Present at the meeting:

- Jan Larsen, DTU
- Chris Baume, BBC R&D
- Joern Loviscach
- Karlheinz Brandenburg, Fraunhofer IDMT, TU Ilmenau
- Gautham Mysore, Adobe R&D
- Lars Gaustad, National Library of Norway
- Gyorgy Fazekas, QMUL
- Christian Uhle, Fraunhofer IIS

Agenda:

1. Welcome and introduction of participants
2. Organization of Special Session
3. AES Conference in London 2014
4. Tutorial and workshop planning
5. AOB

Minutes:

2. Organization of Special Session

- We decided to organize a Special Session with the topic "Intelligent Audio Editing"
- Christian gets information on how this can be done from the TCL

3. AES Conference in London 2014

- Paper submission is probably in September 2013.

4. Tutorial and workshop planning

- Gautham Mysore: Tutorial on Source Separation for AES 135 in NY.
 - GM thinks about organizing a tutorial.
 - The tutorial demonstrates the state of the art, by using audio examples.
 - CU passes the information on submission date and web form.
- Jan Larsen: Workshop on Data sets for Machine Learning
 - Many data sets are publicly available. The workshop gives an overview about these data sets.

5. AOB

- GM showed a nice demo of source separation with user input after the meeting.
