

**Audio Engineering Society
Technical Committee
Fiber Optics for Audio**

**Minutes for Virtual Committee Meeting (via Zoom)
2:00-3:00PM (EDT) 24 OCT 2022**

Attending:

Ron Ajemian (Chair)

Kenneth Fause

Warren J. Osse

Discussion Topics:

1. How to reach out to European & Asian members and interested parties for participation in this TC
 - a. [Riedel Communications](#), as they work in this field
 - b. Both Europe & Asia have significant fiber optic infrastructure
2. Collaboration across TCs
 - a. How to engage & enhance
 - b. TC-NAS
 - i. Warren mentioned he is a member of TC-NAS and has not been notified of any meeting this week and was ready to discuss this coordination
 - c. Is there any TC that discusses/develops the design of (audio or audio-visual) network infrastructure that may include fiber optics as part of that solution?
 - d. Cruise ships & aircraft (automotive use of fiber optics is increasing)
3. New colour coding standard in development for fiber optics
 - a. New colour code for "media?"
4. SMPTE has several fiber optical connector & cabling standards
 - a. AES/TC-FOA to coordinate with SMPTE?
